

Product Description

The Multilink 612-SSTP Optical Fiber Splice Tray is designed to safely route and store optical fiber and associated splices. The tray is fully compliant to industry specification Telecordia GR- 769, Splice Organizer Assemblies for Optical Fibers. The 612-SSTP splice tray is designed to be installed into a variety of Multilink products including the 4024-D Splice enclosure and specialized patch panels. The tray is one in a family of units that support fiber splicing.
