

# **RouterOS by Example**

Understanding MikroTik RouterOS Through  
Real Life Applications

2nd Edition

Stephen R.W. Discher

2<sup>nd</sup> Edition Editor: Lauren J.A. Discher  
1<sup>st</sup> Edition Editor: Carolyn Discher  
1<sup>st</sup> Edition Illustrations: Phillip Crawford  
Cover Design: Enrique Gonzales

# Table of Contents

<b>INTRODUCTION .....</b>	<b>14</b>
Who or What is MikroTik? .....	14
What is RouterOS? .....	15
RouterBOARD – The MikroTik Hardware Platform.....	15
RouterBOARD Product Designations.....	16
Custom RouterBOARD Solutions .....	17
Letter Designators Following Model Numbers.....	19
How This Book is Structured .....	20
<b>Chapter 1- First-Time Access .....</b>	<b>22</b>
WinBox.....	22
Navigating WinBox .....	23
Inside WinBox .....	24
Safe Mode .....	26
Example – Entering Safe Mode .....	27
Command Line Terminal Options .....	27
Telnet and SSH.....	28
Serial Terminal .....	28
Example- Forgotten Password.....	29
Working With a Simple Configuration .....	33
Interfaces .....	36
Example – Add an IP Address.....	37
<b>Chapter 2 – User Management.....</b>	<b>39</b>
Example - User and Group Assignments and Policy.....	41

<b>For Further Study – UserManager.....</b>	<b>41</b>
<b>Chapter 3 – Upgrading and Downgrading the Operating System, Package Management.....</b>	<b>43</b>
Example – Upgrading the Operating System When the Router Does Not Have Internet Access.....	44
Example – Downgrading the Operating System.....	48
Example – Upgrading using FTP .....	49
Example – Upgrading When the Router Has Internet Access..	50
Example – Adding a Package .....	51
Example – Best Practice for Package Management .....	52
<b>Chapter 4 – Router Identity &amp; Remote Access.....</b>	<b>53</b>
Example – Setting the System Identity .....	54
<b>IP Cloud for Remote Access .....</b>	<b>55</b>
<b>IP Cloud Operational Details<sup>1</sup>.....</b>	<b>55</b>
Example – Setting Up IP Cloud .....	56
<b>RoMON .....</b>	<b>57</b>
Example – Setting up a RoMON Network .....	60
<b>Chapter 5 – System Time and the NTP Protocol.....</b>	<b>66</b>
<b>NTP Client Setup.....</b>	<b>66</b>
Example – Setting Up the NTP Client .....	66
<b>System Clock.....</b>	<b>67</b>
Example – Setting the System Clock Manually and Setting the Time Zone .....	68
<b>Advanced NTP Server Setup .....</b>	<b>68</b>
Example – Enabling NTP Server .....	69
<b>Chapter 6 – Backups.....</b>	<b>72</b>
Example – Creating an Image Backup .....	73

Example – Restoring an Image Backup.....	74
<b>Text-Based Backups.....</b>	<b>75</b>
Example – Creating a Text Export (text backup) .....	76
Example – Importing a Text Backup.....	77
<b>Chapter 7 – Licensing .....</b>	<b>79</b>
<b>CHR – Cloud Hosted Router .....</b>	<b>82</b>
<b>CHR Licensing.....</b>	<b>83</b>
Example – Determining Your License Level.....	84
Example – Install a License.....	85
<b>Chapter 8 – Firewalls .....</b>	<b>87</b>
<b>Connections.....</b>	<b>92</b>
<b>Two Ways To Control Access.....</b>	<b>95</b>
<b>Forward Chain .....</b>	<b>97</b>
<b>Address Lists .....</b>	<b>102</b>
Example – The Basic Firewall .....	103
<b>Summary of Rules .....</b>	<b>113</b>
<b>Chapter 9 – NAT, Network Address Translation.....</b>	<b>114</b>
<b>Source NAT.....</b>	<b>114</b>
<b>Destination NAT.....</b>	<b>116</b>
<b>Special Types of NAT Rules.....</b>	<b>119</b>
<b>Source NAT With Multiple Public IP addresses .....</b>	<b>119</b>
<b>Destination NAT with Action Redirect.....</b>	<b>120</b>
Example – A Simple Masquerade Rule.....	122
Example – Destination NAT for a Web Server on the Private Network with Port Translation .....	124
Example – Source NAT to Source Traffic From a Certain IP Address .....	126

Example – Destination NAT with the Action Redirect.....	128
<b>Service Ports - NAT Helpers .....</b>	<b>129</b>
<b>Connection Tracking (on and off) .....</b>	<b>130</b>
Example – Disable Connection Tracking .....	132
<b>Tools – Torch.....</b>	<b>133</b>
Example – Determining the Source of Traffic on a Network	134
<b>Chapter 10 - Bandwidth Limits .....</b>	<b>137</b>
<b>    Simple Queues .....</b>	<b>137</b>
<b>    Bursting.....</b>	<b>139</b>
Example – Creating a Simple Queue for Computers in an Office Network.....	143
Example – Creating a Queue for a Destination Host.....	145
Example – Create a Queue for Local Computers with Burst.	147
<b>    Packet Mangling .....</b>	<b>149</b>
Example – Packet Mangling Using Optimal Mangle .....	150
<b>    Traffic Prioritization.....</b>	<b>154</b>
<b>    For Further Study: QoS.....</b>	<b>155</b>
Example – Queue Priority for VoIP Traffic .....	155
<b>PCQ – Per Connection Queuing.....</b>	<b>160</b>
Example – Using PCQ with a Simple Queue, One Limit to All .....	163
<b>PCQ Queue Properties.....</b>	<b>167</b>
<b>Chapter 11 – Tools.....</b>	<b>168</b>
<b>    Bandwidth Test Utility.....</b>	<b>168</b>
Example - Bandwidth Test Utility.....	169
<b>    Monitoring Tools .....</b>	<b>171</b>
Example – Using Torch to Troubleshoot “Slow” Networks.	173

<b>Traffic Graphing</b> .....	<b>175</b>
Example – Configure a Graph for all Users in a Subnet .....	177
<b>SNMP – Simple Network Management Protocol</b> .....	<b>180</b>
<b>Chapter 12 – Local Area Networks</b> .....	<b>182</b>
<b>ARP</b> .....	<b>183</b>
Example – Create a LAN that Requires Static ARP .....	185
<b>DNS</b> .....	<b>188</b>
Example – Configure DNS Client and Caching DNS Server	188
<b>DHCP – Dynamic Host Configuration Protocol</b> .....	<b>189</b>
<b>DHCP Client</b> .....	<b>190</b>
Example – Add a DHCP Client .....	190
<b>DHCP Server</b> .....	<b>192</b>
Example – Create a DHCP Server.....	193
Example – DHCP Static Leases .....	196
Example – DHCP Server Without an IP Pool .....	197
<b>HotSpot – Instant Public Internet</b> .....	<b>198</b>
Example – Set up HotSpot .....	199
Example – Create IP Bindings .....	203
Example – Create Additional Users.....	204
Example – User Profiles .....	206
Example – Server Profiles .....	208
Example – Walled Garden .....	210
Example – Creating a Custom Login Page .....	211
<b>Web Proxy</b> .....	<b>213</b>
Example – Configuring a Transparent Web Proxy .....	214

Example – HTTP Firewall, Allowing or Blocking Certain Sites .....	218
Example – Redirect Users to Certain Sites .....	222
Example – Logging Web Traffic .....	224
Example – Logging to a Remote Syslog Server.....	225
<b>Chapter 13 – Storage .....</b>	<b>228</b>
<b>System Storage.....</b>	<b>228</b>
Example – Explore Stores.....	228
Example – Create a Store .....	230
System Disk Management After Version 6.20.....	231
Example – Format and Connect an External Disk .....	233
<b>Chapter 14 – More RouterOS Tools .....</b>	<b>237</b>
<b>Email Tool.....</b>	<b>237</b>
Example – Configure the Email Tool.....	238
Example – Use a Script With the Email Tool and Scheduler to Create and Send a Backup .....	239
<b>Netwatch.....</b>	<b>242</b>
Example – Reboot the Router Using Netwatch.....	242
<b>Ping.....</b>	<b>243</b>
<b>Traceroute.....</b>	<b>244</b>
<b>Profile.....</b>	<b>245</b>
<b>Chapter 15 – Wireless .....</b>	<b>246</b>
<b>Wireless Theory .....</b>	<b>246</b>
<b>802.11b.....</b>	<b>247</b>
<b>802.11g.....</b>	<b>247</b>
<b>802.11n.....</b>	<b>247</b>
<b>802.11ac.....</b>	<b>248</b>

<b>Channelization – 2.4 GHz 802.11b/g/n.....</b>	<b>248</b>
<b>Channelization – 5 GHz 802.11a/n/ac.....</b>	<b>249</b>
<b>Small Channels .....</b>	<b>251</b>
<b>Bridged Versus Routed Access Points and Stations .....</b>	<b>252</b>
<b>Routed .....</b>	<b>252</b>
<b>Bridged.....</b>	<b>252</b>
<b>Configure an Access Point (PtMP) With DHCP Server....</b>	<b>253</b>
Example - Initial Wireless Interface Configuration .....	253
<b>Wireless Security .....</b>	<b>258</b>
<b>Controlling Access with MAC Lists .....</b>	<b>258</b>
Example – Create an Access List on an AP.....	259
Example – Create a Connect List on a Station.....	261
<b>Example - Encryption Using WEP .....</b>	<b>264</b>
Example – Encryption Using WPA(2).....	266
Example - IP Addressing, DNS, Masquerade.....	269
Example – Configure a Wireless Interface to be a Routed Station (client).....	270
Example – Create a Virtual AP .....	272
<b>Bridging – Point to Point or Point to Multi-Point.....</b>	<b>274</b>
<b>Bridging MikroTik Station to a Non-MikroTik AP that Supports WDS.....</b>	<b>274</b>
Example – Transparently Bridging a Link With WDS .....	275
<b>Bridging a Station Using Station-Bridge Mode .....</b>	<b>279</b>
<b>Station End.....</b>	<b>279</b>
<b>Access Point End .....</b>	<b>281</b>
<b>Point to Point Links.....</b>	<b>283</b>
<b>Pseudobridge Modes.....</b>	<b>284</b>

<b>Wireless Mode Station-Pseudobridge .....</b>	<b>284</b>
<b>Wireless Mode Station-Pseudobridge-Clone.....</b>	<b>285</b>
Example – Bridge a Station Using Pseudobridge.....	285
<b>Supporting Mixed Clients, Routed Stations, and Bridged     Stations .....</b>	<b>287</b>
<b>WDS, Wireless Distribution System.....</b>	<b>288</b>
Example – Build a WDS System .....	289
<b>NV2- Nstreme Version Two .....</b>	<b>291</b>
Example – Converting an 802.11n PtMP System to NV2 .....	292
Example – Hiding the SSID .....	295
<b>Chapter 16 – Routing.....</b>	<b>296</b>
<b>Simple Static Routes.....</b>	<b>297</b>
<b>Most Specific Route.....</b>	<b>298</b>
<b>Default Routes .....</b>	<b>298</b>
Example - Tying it All Together With Static Routes.....	299
<b>Route Distance .....</b>	<b>301</b>
<b>Dynamic Routes.....</b>	<b>303</b>
<b>Routing Flags.....</b>	<b>303</b>
<b>OSPF – A Dynamic Routing Protocol .....</b>	<b>304</b>
<b>Link State Protocol .....</b>	<b>305</b>
<b>Areas .....</b>	<b>305</b>
<b>Configuring OSPF .....</b>	<b>306</b>
Example – Add a Static Route .....	308
Example – Add a Default Route .....	310
Example – Set up OSPF, the Basics .....	312
<b>Chapter 17 – VPN Tunnels .....</b>	<b>319</b>

<b>General .....</b>	<b>319</b>
<b>Point to Point Addressing .....</b>	<b>321</b>
<b>PPPoE – Point to Point Protocol over Ethernet, Applying PTP Addressing.....</b>	<b>323</b>
Example - IP Pools .....	325
Example - PPP Profiles.....	326
Example – Create a PPPoE Server .....	328
Example – Create a User (Secret).....	329
Example – Create a Client Profile .....	331
Example – Create a PPPoE Client.....	333
<b>PPTP and L2TP Tunnels .....</b>	<b>335</b>
Example – Create a PPTP Server.....	336
<b>Adding Routes for Tunnels.....</b>	<b>337</b>
<b>Tunnels With IP Addresses on Same Subnet as LAN Hosts .....</b>	<b>337</b>
Example - Configuring L2TP Server.....	338
<b>PPP Status Tab.....</b>	<b>340</b>
<b>Bridging Tunnels .....</b>	<b>340</b>
Example – Create a Bridged EoIP Tunnel .....	340
Example – Create a Transparent VPLS Tunnel .....	343
<b>Near End of Tunnel (AP).....</b>	<b>344</b>
<b>Far End of Tunnel (station) .....</b>	<b>346</b>
<b>Chapter 18 – Switching.....</b>	<b>349</b>
<b>Introduction .....</b>	<b>349</b>
<b>Background of Switch Design.....</b>	<b>349</b>
<b>Switch Operation.....</b>	<b>350</b>
<b>The Switching Process.....</b>	<b>350</b>

Collision Domains.....	351
Broadcast Domains .....	351
Reducing Network Congestion.....	352
Integrated Managed Switch Features in RouterBOARD Hardware .....	352
What are VLANS.....	353
Configuring Switching Functions on Non-CRS Devices...	355
Port Switching.....	355
Port Mirroring .....	357
Host Table.....	358
VLAN Table.....	358
Example – Switch ports Ether2 through Ether5 .....	359
Configuring Switching Functions on the Cloud Router Switch .....	361
CRS Switching Features .....	361
ACL Button .....	362
Switch FDBs Button.....	363
Ports Button .....	363
QoS Button.....	365
Switch Settings Button.....	365
Applications For VLANs .....	366
Router on a Stick, also Known as Inter-VLAN Routing ....	366
Multiple Access Ports, Same VLAN.....	367
Tagged VLANs and Untagged Traffic, Same Port Group	368
Hybrid Topology, Trunk and Access Ports on the Same Physical Port .....	369
Multiple Trunk Ports .....	370

Example – Port Master Reset and a Script to Assign Master Ports.....	372
Example – Router on a Stick .....	375
Example – One Trunk, Multiple Access Ports, Same VLAN	383
Example - Hybrid Topology, Trunk and Access Ports on the Same Physical Port .....	389
Example – Multiple Trunk Ports.....	396
Example – Create QoS Policies for Individual Ports.....	405
Example – Create a LAG Group .....	407
Example – Create Port Isolation to Prevent Rogue DHCP Servers.....	410
<b>Chapter 19 - Conclusion.....</b>	<b>414</b>
<b>About the Author.....</b>	<b>415</b>
<b>References .....</b>	<b>416</b>
<b>Appendix 1.....</b>	<b>417</b>
<b>Table of Figures .....</b>	<b>423</b>
<b>Index.....</b>	<b>425</b>
