

WALL FEED-THROUGH BUSHINGS

Trim Rings Give a Professional Finish to Drilled Holes

DESCRIPTION

Make drilled holes look professional. Use the economical wall bushings to finish the job right.

Keeps out drafts and reduces insect travel options.

Accommodates most Series 6 dual-shield, tri-shield, and quad-shield coax configurations.

Teeth around the cylinder help secure the bushing in place when used in sheet rock.

FEATURES

- Dress up drilled holes for Series 6 coax wire entry
- Available for both single coax and dual coax
- One model has clearance slots for siamese ground wires
- Center passageway accomodates up to 0.30" O.D. coax
- Select white, ivory or black injection molded colors
- UV protected plastic
