

## Tech note: EH-1200-EMULATOR

### Introduction

EH-1200-EMULATOR allows testing EtherHaul™ large radios (EH-1200/2x00/5500 & EH-8010) indoor, without antennas, to control the tests conditions, and reduce radiation exposure.

Edition: A0, December 2018

The packed emulator is shown first.

Opening the box reveals the accessories.

The mounting plate is stored under the accessories tray.

The 2 radios are mounted on the mounting plate, and connected with the wave-guide and attenuator bridge.
