

New Product Announcement: AX-MK-WM

Siklu is pleased to announce the AX-MK-WM: the AX-MK-WM is a short pole for easy installation of a single Siklu radio on a wall, with full 90° horizontal rotation for many antenna sizes and running of the data cables to the radio, through the wall or from under/above the radio. Additional information is available in the datasheet on [Siklu's partners' Portal](#).

Part number	Description
AX-MK-WM	Short wall-mounted pole for single ODU

Compatibility Rules

The following table describes the compatibility of the AX-MK-WM with EtherHaul™ and MultiHaul™ radios, mounts and antennas. The amount of rotation is also noted.

Radio	Antenna (size or P/N)	Mounting Kit	Compatibility / rotation up to
MultiHaul™ B100, T200, T201	Integrated	Integrated	Yes / 90°
EtherHaul™ 500/600/614	0.5ft integrated antenna	EH-MK-SM	Yes / 90°
EtherHaul™ 600	EH-ANT-1ft-60GHz	AX-MK-1ft-B	Yes / < 90° (R)
EtherHaul™ 700/710	EH-ANT-0.5ft	EH-MK-SM	Yes / 90°
EtherHaul™ 700/710	EH-ANT-1ft-B	AX-MK-1ft-B	Yes / < 90° (R)
EtherHaul™ 1200/2200/2500/5500	EH-ANT-0.5-SLIM	AX-MK-1ft-B	Yes / < 90° (R)
EtherHaul™ 1200/2200/2500/5500	EH-ANT-1ft-B	AX-MK-1ft-B	Yes / < 90° (R)
EtherHaul™ 8010	EH-ANT-0.5-8000	AX-MK-1ft-B	Yes / < 90° (R)
EtherHaul™ 8010	EH-ANT-1ft-B	AX-MK-1ft-B	Yes / < 90° (R)
EtherHaul™ (all)	EH-ANT-2ft-B	Integrated in the antenna	No

(R): The amount of rotation for these ODUs and antenna combinations is less than 90° and depends on the polarization, horizontal or vertical.
