# Atom OD04 Outdoor High-Gain UE

# Bricells

The Baicells Atom OD04 Outdoor High-Gain User Equipment (UE) provides superior wireless access performance and routing capabilities to bring broadband data and voice services to end-users. The UE operates with standardized Long-Term Evolution (LTE) Time Division Duplexing (TDD) to enable high-speed, wireless communications.

Bailanis

The high-gain UE is designed exclusively for the fixed wireless market, featuring a spring-locked gasketed door for protecting the SIM slot and eliminating the need to weatherproof the power and Ethernet connections. Wireless and wired devices, including mobile phones, laptops, tablets, and other smart devices, can access the UE simultaneously.

The product comes with a standard one-year warranty.
