

# SRA-SE2414DP

### **Key Features:**

- 2x14 dBi Sectoral Gain
- Dual Polarization H&V in One Case
- Integrated enclosure
- Mounting for Mikrotik 411, 433, 600, series
- Mounting for Ubiquiti Rocket
- High Quality Construction
- Heavy-Duty Mounting Elements
- Easy Elevation and Tilt Adjustment
- 5 Years Warranty
- Designed for All Weather Operation

## **Applications:**

- 2.4 GHz Band Wireless LAN
- N streme dual configuration
- 802.11n/MIMO standard
- IEEE 802.11b/g WLAN Systems
- Point to Multipoint Applications

#### **Available in E version**

SRA-SE2414DP-e

Economy version with cable gland.

#### Description:

compartment for RouterBoard or any other electronic equipment. Enclosure is furnished with special RJ-45 waterproof ethernet connector with an easy connection to Internet Network and PoE. Perfectly designed for operation under severe weather conditions. Proper materials allow operation in the salty water environment without corrosion. High quality construction of pole mounting elements guarantee easy elevation and easy tilt down as well as rock-stable operation. It can be used as customer premise equipment and also as a base stations. Inside the enclosure there are suitable posts for all Mikrotik Routerboards, mounting for Ubiquiti Rocket and for other radios.
