14.5 DBI 900MHZ YAGI ANTENNA

Technical Specifications

14.5 dBi 900MHz

MODEL	YA14KPPD
FREQUENCY RANGE	900-930 MHz
USABLE RANGE	880-940 MHz
GAIN	14.5 dBi
FRONT TO BACK	25 dB
VSWR	1.23 TYPICAL
POLARITY	VERT / HORZ
STACKING DISTANCE	28"
FEED IMPEDANCE	50 OHMS
FEED CONNECTOR	N-FEMALE
POWER HANDLING	500 WATTS
BOOM LENGTH	36"
WEIGHT	3.4lbs

Antenna Features

- Black polyester powder coating (no fade 5 year)
- N-female connection on the bottom of the dipole (easy to connect and tape for weather proofing)
- Double stacked U-bolt style 7/16 mounting
- Entire mounting hardware is stainless steel
- Main boom is completely capped on both ends (not allowing water to get into the boom)
- Directions from the main boom are compression crimped, not riveted (will not come loose)
